

## **REMARKS**

In a Notice of Allowance dated n Office Action dated October 21, 2008, the Examiner indicated that claims 59-64, 66-76, 84-94, 97 and 98 are allowable. Additionally, after a telephone interview with the Examiner, the Examiner proposed a claim that would be allowable. Newly added claim 100 reflects the claim proposed by the Examiner with only a minor change. In the Examiner's proposed claim, the final line recited that lateral edges of the wings were divergent. However, the claim already recited the outer edges of the wings. Therefore, to eliminate any possible confusion, the claim recites that the outer edges of the wings are divergent.

Since the Examiner has already indicated that the newly added claim is allowable over the prior art, and since the remaining claims have already been allowed, Applicant requests that the Examiner favorably consider newly present claim 100 and dependent claims 101-105.

In light of the foregoing, Applicant believes that this application is in form for allowance. The Examiner is encouraged to contact Applicant's undersigned attorney if the Examiner believes that issues remain that would prevent the Examiner from examining the claims.

Respectfully submitted,
